

Common Registration Errors

Error or Restriction	Solution
<p>Closed Section Error The section you have chosen is full and has no more seats available.</p>	Choose a different section of the course if possible. If it is a Gen Ed class you are attempting to register for, you may have to choose a different course if all sections of your preferred course are full.
<p>Time Conflict Error You have attempted to register for a course that overlaps or conflicts with another course on your schedule.</p>	You will need to look at your schedule and register for a different section that does not conflict with the courses currently in your schedule.
<p>Prerequisite Error Student does not meet the prerequisite required. A prerequisite is either a course a student must successfully complete before enrolling or a test score (such as the Clemson Math Placement Test).</p>	<p>If you do not meet the prerequisite, then you cannot take the course.</p> <p>If you have the prerequisite but you are missing the credit or score in iROAR, please consult with an advisor to see if an override is possible.</p>
<p>Corequisite Error Student is not enrolled in the required corequisite. A corequisite is a course that must be taken concurrently with another course.</p>	You must add the required corequisite at the same time in the worksheet (CH 1010 and CH 1011) before submitting the classes for registration.
<p>Student Attribute Restriction Course restricted to a specific student attribute. Certain sections of courses are restricted to students participating in certain programs (e.g., Honors, RISE Living Learning Community).</p>	If you do not have that student attribute, then you cannot take that specific section of the course and should pick a different section that is not restricted.
<p>Field of Study Restriction Course is restricted to a student in a specific field of study (major, minor, or concentration).</p>	If you are not in the required field of study, then you cannot take that specific section of the course and should pick a different section that is not restricted.
<p>Program or Degree Restriction Course is restricted to a student in a specific academic program (e.g., BA-ENGL-2) or degree (e.g., BA, BS).</p>	If you are not in the required academic program or degree, then you cannot take that specific section of the course and should pick a different section that is not restricted.
<p>College Restriction Course is restricted to a student in a particular college (e.g., G – Science).</p>	If you are not in the required college, then you cannot take that specific section of the course and should pick a different section that is not restricted.
<p>Class Restriction Course is restricted to a student in a specific class (e.g., Sophomore).</p>	<p>If you do not have enough credits completed to be classified as in that class, then you cannot take that course.</p> <ul style="list-style-type: none"> ■ Freshman – 0 to 29 credits ■ Sophomore – 30 to 59 credits ■ Junior – 60 to 89 credits ■ Senior – 90 plus credits
<p>Consent Required Course requires special approval from the instructor to enroll. Instructor consent is often used if the course is restricted, but the department can't use prerequisites, student attribute codes, field of study, college, or class restrictions to limit enrollment. Sometimes an audition may be required before a student can enroll in the course (e.g., some of the band and choral groups).</p>	<p>Most of the time, you should pick a different class to take unless you know why instructor consent is being used (e.g., audition) or were told to enroll in a specific section for a program you are part of.</p> <p>If you receive permission to take the course, then the instructor will provide an override so you can register or they will have you enrolled into the course.</p>
<p>Repeat Count or Duplicate Course Repeat Course Error is generated for a course which a student has already received credit, are currently enrolled in, or are registered for in a future term.</p>	Check your schedule, as you may already be enrolled in the course and may need to remove the duplicate course from the worksheet so you do not resubmit it when you register for your next course.
<p>Registration Hold A hold on your account may prevent registration. schedule.</p>	<p>To resolve holds, you must contact the department that issued the hold. Your advisor can't resolve a registration hold.</p> <p>You can check for holds by looking in iROAR: Students > Student Records > View Holds.</p>
